

SUBHRADEEP SAHA

MACHINE LEARNING ENGINEER

rosesaha2k@gmail.com | <https://www.linkedin.com/in/subhradeep-saha-51a3732a7/> | <https://github.com/subhra12-commits> | 7005563799

SUMMARY

Motivated Machine Learning Engineer with hands-on experience in building and deploying ML models, data pipelines, and AI-driven solutions. Proficient in Python, deep learning frameworks, and MLOps tools. Passionate about solving real-world problems through data and intelligent systems.

TECHNICAL SKILLS

Programming: Python, C++, SQL **Machine Learning:** Scikit-learn **Deep Learning:** PyTorch, TensorFlow **MLOps & Deployment:** Docker, MLflow, DVC **Version Control:** Git

PROJECTS

Customer Churn Prediction

- Built an end-to-end ML pipeline to predict customer churn using gradient boosting models, achieving 92% accuracy on test data.
- Deployed the prediction application using Flask and Docker on AWS.

AI Resume Screener

- Developed an NLP-based resume screening tool using BERT for semantic matching between job descriptions and resumes.
- Implemented MLflow for experiment tracking and DVC for data versioning.
- Additional projects available on GitHub.

EXPERIENCE

ML Engineer Intern – AiLabs | Jun 2025 – Jul 2025

- Worked on training and fine-tuning NLP models for classification tasks.
- Collaborated with data engineers to build scalable data pipelines.
- Automated model evaluation and reporting using MLflow.

AI Engineer Intern – AiLabs | Jun 2026 – Jul 2026

- Worked on training and fine-tuning NLP models for classification tasks.
- Collaborated with data engineers to build scalable data pipelines.
- Automated model evaluation and reporting using MLflow.

EDUCATION

B.Tech in Computer Science or related field

The Neotia University | 2027 – 2023

CERTIFICATIONS

-

ACHIEVEMENTS

- Hackathon Finalist – National ML Challenge 2023
- Published research paper on NLP-based text classification
